

carecor™
health services ltd.

For almost 30 years, Carecor has been providing highly trained patient care staff for healthcare facilities. "Just-in-Time" availability and consistent quality standards have made Carecor the 1st choice Staffing Agency for Acute Care Hospitals, Complex Continuing Care Facilities, Mental Health Centres, Long Term Care Facilities and Retirement Residences. In addition, moving important mail, lab specimens, patient food, linen and laundry and all the things health care uses between these locations has also been a Carecor service from the very beginning.

We stand for one word – CARING manifested in four ways:

1. We hire the best and the brightest healthcare workers, and keep them satisfied with challenging assignments.
2. We match the needs of the facility with the nurse's placement criteria to assure the best possible fit.
3. We listen and fulfill home care requests on a case-by-case basis to ensure individuals receive the care they want and need.
4. We are a leader in the dependable transportation of laboratory specimens, biohazardous substances, pharmaceuticals, diagnostic images, patient files, and related correspondence.

It is our aim to remain as the employer of choice for nurses, and those involved in providing services to the healthcare sector.

Hire us, work for us, and trust us with your care.
