

Digital Health Management

Join Us

Our digital health staff share our commitment to improving the healthcare system for the communities in which we live and work. Our senior recruiting and staffing team have deep roots in the Information Management/Information Technology (IM/IT) sectors, with years of education and training in this specialized field so we understand how information technology intersects with healthcare operations and management. You could apply your IM/IT skills anywhere, but on our dynamic team you help advance healthcare delivery like never before.

Due to our strong relationships with hospital chief information officers (CIOs) and key government agencies in digital health, we have placed over 2,500 professionals into a variety of temporary and permanent positions in hospitals and other healthcare organizations. Let us be your gateway to building your personal brand and career in digital health.

Duties and Responsibilities

- Demonstrate your proven strategic leadership in digital health as a proactive, self-starting, and results oriented individual who builds a consensus at the management and executive levels
- Provide tactical planning in the identification and development of new initiatives with stakeholders and leadership peers
- Manage the employees and contract workers, promoting a teamwork environment where staff from diverse multilingual and multicultural backgrounds can interact productively and efficiently
- Implement and communicate performance measures for employees
- Conduct performance appraisals of direct reports providing ongoing coaching and feedback
- Resolve staff issues in a fair manner with support from human resources department
- Promote and facilitate opportunities for professional growth and development of employees, approving training requests where appropriate
- Provide input and support to the executive team in developing governance level materials which includes team scorecards, project progress updates, business intelligence updates and other dashboard reports
- Participate in the evolving maturity of corporate governance policies and business and operational processes

Our Requirements

- University degree in one of: Healthcare Administration, Nursing or Allied Health Management, Computer Science, Health Informatics or Business Management; with preferred education at a Master's level complimented by specialized training or post grad certificates related to digital health

- 12 to 18+ years' of experience in healthcare or IM / IT, and 5 to 10+ of those years will include experience in related digital health leadership positions
- Strong stakeholder relationship skills with a proven ability to initiate, build and foster effective and lasting relationships with clients, vendors and other partners
- Effective negotiation and communication skills with superior listening, presentation and written abilities, coupled with the ability to advocate and educate
- Experience in business transformation specific to participation in business and organizational change, operational maturity and transformation plans and initiatives
- Knowledge of common clinical care processes including healthcare information technologies, with an emphasis on applications, and basic principles of digital health systems integration

About Us

Established in 1982, Carecor is a dominant provider of staffing services to healthcare facilities in Ontario and Nova Scotia. We provide clients with a full spectrum of health care workers specialized in patient care, digital health, and medical administration. In addition to celebrating our quality staff, we are proud recipients of the "Exemplary Standing" award from *Accreditation Canada*.
