

EMR/HIS Implementation Specialist

Join Us

Our digital health staff share our commitment to improving the healthcare system for the communities in which we live and work. Our senior recruiting and staffing team have deep roots in the Information Management/Information Technology (IM/IT) sectors, with years of education and training in this specialized field so we understand how information technology intersects with healthcare operations and management. You could apply your IM/IT skills anywhere, but on our dynamic team you help advance healthcare delivery like never before.

Due to our strong relationships with hospital chief information officers (CIOs) and key government agencies in digital health, we have placed over 2,500 professionals into a variety of temporary and permanent positions in hospitals and other healthcare organizations. Let us be your gateway to building your personal brand and career in digital health.

Duties and Responsibilities

- Coordinate the technical aspects of the EMR / EHR / HIS implementation at the main campus of the hospital and at other regional sites that are included
- Work with internal and external clients on clinical workflow analysis related to EMR / EHR integration
